

AVISHKAR DRONE

DRONE INFORMATION GUIDE

ABOUT AVISHKAR DRONE

Avishkar Drone is a modern drone technology platform designed to provide advanced aerial solutions for photography, surveillance, agriculture, mapping, and industrial operations. Our goal is to make drone technology accessible, affordable, and useful for students, professionals, and businesses.

WHY DRONE TECHNOLOGY?

Drone technology is transforming multiple industries. Drones help capture aerial data, improve safety, reduce manual work, and provide accurate insights through high-quality images, videos, and sensors. From monitoring crops to inspecting infrastructure, drones offer smart, efficient, and cost-effective solutions.

FEATURES OF AVISHKAR DRONE WEBSITE

- Drone comparison tools
- Latest drone news & updates
- Drone training & certification details
- Online drone accessories store
- Tutorials, videos, and learning resources
- Customer support & booking system

DRONE CATEGORIES

1. Photography Drones
2. Agriculture Drones

3. FPV Racing Drones
4. Mini Drones
5. Industrial Inspection Drones

DRONE TECHNOLOGY CURRICULUM

Basics of Drones

Understanding components, motors, propellers, frames, batteries, and controllers.

Flight Training

Basics of takeoff, landing, stability control, and safe flying operations.

Aerial Photography & Videography

Camera handling, shot planning, and advanced imaging techniques.

Drone Regulations

Understanding DGCA rules, drone categories, UIN registration, and safety norms.

Mapping & Surveying

Using drones for 3D mapping, land surveys, and geographic data collection.

Agricultural Drone Operations

Spraying techniques, crop monitoring, and NDVI analysis.

TOOLS & TECHNOLOGIES USED

- GPS & Navigation Systems
- Drone Simulation Software
- High-Resolution Cameras

- Brushless Motors
- Remote Controllers & Flight Apps

PROGRAM HIGHLIGHTS

- Hands■on drone flying practice
- Real■world industry projects
- Daily doubt■solving sessions
- Drone repair & troubleshooting guidance
- Certification support

PROJECTS

- Agricultural field monitoring
- Drone■based mapping for construction
- Aerial photography project
- FPV custom drone building

SUPPORT & LEARNING

We provide live support, community channels, email assistance, and expert guidance to help you learn and use drones effectively.

THANK YOU
